 Portfolio: [Dribbble Shots](#) - [PDF Portfolio](#)

Summary

Product and UX/UI Designer with strong experience in **AI-driven platforms** and enterprise web applications. Skilled at transforming complex requirements into intuitive, user-friendly interfaces and building scalable design systems using Figma and Framer. Experienced in leading end-to-end product design, from research and prototyping to final handoff, with a focus on usability, accessibility, and aligning design with business goals.

Experience

AI Product Designer | Newcode.ai, Norway

Remote | 2024 - Present

Lead designer for **Nova platform**, an AI platform that helps law firms and government clients draft, review, and manage legal documents securely (ISO 27001/9001).

- Designed core features like **Matrix Upload & Clause Picker** for bulk document handling, **Prompt Library & Chat** for AI-assisted contract review, and **Document Timeline & Version Control** for audit-ready history.
- Built a scalable design system in Figma using Ant Design/ShadCN, ensuring accessibility, multi-language support, and seamless collaboration with engineers and product managers.

Product Designer | Fortifai, Norway

Remote | 2022 - 2024

Led UX and UI design for Fortifai's GDPR compliance platform, a SaaS tool that helps companies manage data-privacy obligations under EU regulations.

- Researched user workflows for data-protection officers and compliance teams.

- Created wireframes, prototypes, and a design system to ensure a **secure, intuitive interface** for tasks like data-request tracking, consent management, and audit reporting.
- Improved onboarding and dashboard usability, reducing setup time and user drop-off.
- Collaborated closely with engineers and product managers to translate complex regulatory requirements into clear, actionable user experiences.

UX/UI Designer | Monun AG, Switzerland

Remote | 2021 - 2023

Created modern, visually engaging websites for a variety of international clients in finance and technology.

- Designed full website experiences—from initial concepts and wireframes to polished, responsive UI.
- Produced brand visuals, style guides, and custom graphics to keep each client's identity consistent across digital channels.
- Worked closely with developers to ensure pixel-perfect, accessible, and performance-optimized builds.

UX/UI Designer | Clickus, Kosovo

Onsite | 2021 - 2023

Worked as a contractor designing custom websites and brand visuals for diverse client projects.

- Designed responsive website layouts, landing pages, and UI components that reflected each client's brand identity.
- Produced creative assets—illustrations, icons, and style guides—to support digital campaigns and marketing materials.
- Collaborated with developers and project managers to deliver pixel-perfect, on-schedule launches.

Visual Designer | Filtrous, California, US

Remote | 2021 - 2021 (7-month Contractor)

Created digital brand assets and marketing visuals for product launches and campaigns.

- Designed web and social media graphics, motion elements, and presentation materials to strengthen brand identity.
- Collaborated with marketing and product teams to ensure consistent visuals across all digital channels.
